

MAHMOUD NASR

Cluster IT Supervisor

+971555970415 Mahmoud.nasr8@outlook.com link.gettap.co/mahmoudnasr8 Dubai, UAE

SUMMARY

IT leader with experience in senior management roles, driving infrastructure excellence. Strong background in large-scale project delivery, budget management, compliance, and team leadership. Led major infrastructure transformations and cost-optimization initiatives and achieved significant cost savings while improving service reliability.

EXPERIENCE

Cluster IT Supervisor

Al Habtoor Hospitality

10/2024 - Present Dubai, United Arab Emirates

- Provide IT support and ensure optimal performance of OPERA PMS, POS, and hospitality applications across 8 outlets.
- Delivered 24/7 IT operational readiness for front office, F&B, finance, and back-of-house teams, ensuring systems availability during peak occupancy and high-revenue periods.
- Oversee IT infrastructure with 24/7 service availability, managing servers, storage, backups, and enterprise network devices.
- Administer and configure network hardware and software, implementing security controls, disaster recovery, and business continuity plans across Hyper-V and VMware environments.
- Lead major IT initiatives including system upgrades, migrations, and infrastructure rollouts with minimal operational disruption.
- Manage Active Directory, Group Policies, user services for 250+ users, and optimize network performance through SNMP tools.
- Preserved and secured CCTV, access control, and security systems, ensuring uptime, data retention and operational compliance.
- Developed and maintained IT SOPs, asset records, and technical documentation, supporting audit readiness, operational continuity, and smooth handovers across shifts and properties.
- Managed vendor contracts, AMC's, and third-party support providers, ensuring SLA compliance, cost control, and timely resolution of critical hospitality system issues.

IT Support Executive Assistant

Al Habtoor Group

10/2023 - 10/2024 Dubai, United Arab Emirates

- Installed and updated operating systems, business applications, and security tools to ensure seamless IT operations.
- Managed Active Directory including accounts, distribution groups, and security permissions, enhancing access control.
- Sustained comprehensive support for Microsoft 365 applications including email and password management.
- Delivered remote support using secure tools, maintaining connectivity with offsite teams.
- Configured IP phones and VoIP systems, optimizing communication infrastructure.
- Maintained IT inventory through asset tagging and audits, ensuring records accuracy.

IT Support Engineer

BPC Egypt Contracting

11/2021 - 03/2023 Gairo, Egypt

- Installed, configured, and maintained software on workstations and servers for optimal performance.
- Supervised user accounts, groups, and permissions via Active Directory.
- Offered technical support to employees by diagnosing and resolving hardware and software issues.
- Monitored system performance, identifying potential issues early and implementing proactive solutions.
- Supported network devices and connectivity issues, including switches, routers, and Wi-Fi troubleshooting.
- Assisted in implementing backup and disaster recovery procedures.
- Upheld inventory records for IT equipment, workstations, and system licenses.
